INTERNSHIPS

AI Developer Intern | aidenai.com ↗   Sept 2025

Currently interning at Aiden AI, where I contribute to multiple innovative projects with a strong focus on full-stack development and AI integration. Demonstrating consistent commitment, adaptability, and a problem-solving mindset in a fast-paced startup environment.

Full Stack Developer Intern | scorely.in ↗   Apr 2025 - Jun 2025

Contributed to multiple Next.js projects during the internship, building scalable front-end features using **Next.js with TypeScript** and writing backend logic with **API routes and tRPC**. I also deployed applications on AWS.

React Developer Intern | elsopro.com ↗   Dec 2024 - Feb 2025

Developed and maintained a website **elsopro.com** using React.js during an internship. Collaborated with a team of developers to implement new features and improve existing ones. Gained hands-on experience in front-end development and enhanced problem-solving skills while working remotely for Blue Digital Media Pvt. Ltd.

PROJECTS

WealthWise | *React.js, MongoDB, Node.js, Express.js, Tailwind CSS, CrewAI* | WealthWise ↗   Feb 2025

- Developed an AI-powered responsive web application utilising custom algorithms and AI Agents for personalised stock, mutual fund, and fixed deposit recommendations.
- Designed a RAG-based chatbot providing users with real-time financial insights and learning modules, including video tutorials to enhance financial literacy.
- Built an expense tracker to help users optimise savings and reduce unnecessary expenditures.

MCP Multi-Server Agent Project | *Python, Streamlit, LangChain, Groq LLM, FastMCP* | GitHub ↗   Aug 2025

- Built a multi-agent system using FastMCP servers to perform real-time math operations and fetch weather data via OpenWeatherMap API.
- Integrated Groq's Qwen-3-32B LLM with LangChain React Agent for intelligent tool orchestration and context-aware responses.
- Developed a responsive Streamlit interface supporting asynchronous queries and dynamic task execution.

AI-Based-WireFrame-Generator | *Express.js, React.js, Langchain, Groq LLM* | GitHub ↗   Sept 2025

- Developed an AI-powered wireframe generation platform with real-time Figma integration and multi-device previews.
- Implemented a LangChain-based RAG system with Groq and Gemini LLMs for context-aware wireframe creation.
- Built a collaborative workspace with Supabase backend, JWT authentication, and WebSocket-based live updates.
- Developed a Figma plugin with an input field that triggers live wireframe updates within seconds based on AI responses.

ACHIEVEMENTS

Won the 1st place at **Techolution Hackathon 2025.V1** conducted by Techolution under the **AI** domain by building the AI-Based-WireFrame-Generator.

Runner-up at **EPITOME25** conducted by Gokaraju Rangaraju Institute of Engineering and Technology under the **Fintech** domain.

Runner-up at **Code4AI** conducted by **Rajiv Gandhi Institute of Technology** under the **AI** domain.

Won the 2nd place at **Zignasa2k23** conducted by **Brain O Vision** under the **Smart Education** domain.

CERTIFICATIONS

A certificate from **Linkedin Learning** and **Microsoft** for completing the **Build Your Generative AI Productivity Skills** with Microsoft and LinkedIn learning path.

A certificate from **Postman** on **Postman API Fundamentals Student Expert**.

A certificate from **Lets Upgrade** on completing the **Git and Github Bootcamp**.
